

# FredMed

## Web Services

Web presence has become a necessity for healthcare providers to market their practices and communicate with their patients. Through strategic partnerships, FredMed offers its members a wide range of web site development and hosting services. Whether your practice is interested in a basic marketing website or a full featured patient portal, options are available to meet your needs.

Jean Peterson Design, a Frederick-based award-winning design firm, offers a variety of services including corporate identity campaigns, logos, illustrations, and web sites. Two packages have been designed for FredMed members to quickly and cost effectively implement a professional website.

- **Template Based Website** – You select your template from TemplateMonster.com and Jean Peterson Design builds a 5-page website. Additional pages and customization may be added.
  - **Custom Designed Website** – Jean Peterson Design designs and develops your custom 5 page website. Additional pages and customization may be added.
  - **Domain Registration**
  - **Hosting**
  - **Website Edits**
- 

Medfusion is the nation's leading provider of award-winning physician practice web sites and secure patient and physician communication portals. Through its partnership with Misys, data captured via several patient portal options can be integrated with your Misys Practice Management software.

- **Website** – Medfusion website creation pricing is based on the number of providers and features desired. Pricing includes changes to content, an unlimited number of pages, 10 patient education videos and Domain registration. Members of AAFP are eligible for free Medfusion websites.
- **Hosting** – Includes Site Generator Tool that provides a graphical user interface (GUI) for practices to control web content
